

# Training Feedback Report

20.05.2021

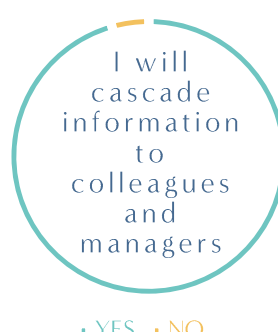

Abianda was commissioned by [REDACTED] to deliver our core training module “Working with Young Women and Girls Affected by Gangs and County Lines.” This is an interactive 3-hour module delivered by our practitioners in which:

- Attendees learn about Abianda – our model of practice, values and services.
- We provide an introduction to Solution Focused Practice, a cornerstone of our approach to working with young women.
- We explore and challenge the stereotypes and myths around young women, gangs and county lines, and facilitate a critical discussion of the term “gang”.
- We address the risks young women face, and the barriers to them accessing support.
- We share the ideal knowledge, skills and attitudes young women tell us they want professionals to have.
- Attendees will come away with enhanced understanding of how young women and girls are affected by gangs and county lines, what stops them getting help, and how to respond.

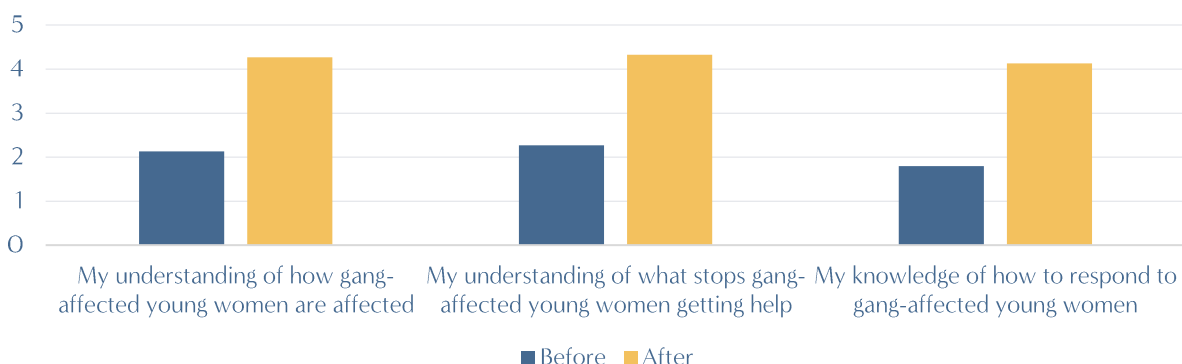

## Training Score
